Profile

A striving Software Development enthusiast with experience in building interactive and real-time applications. Passionate about creating practical, user-focused solutions and improving the overall user experience. Dedicated to continuous learning and growth in the field of technology.

Education

B.E., Computer Science and Engineering
Sri Shakthi Institute of Engineering and Technology
CGPA: 8.17 / 10

2023 – 2027

Senior Secondary Education (CBSE)
Kendriya Vidyalaya

2023

Skills

Programming Languages

C, Python, Javascript

Frameworks and Libraries

Node.js, Express.js, React.js, Fast API

Tools and Platforms

GitHub, VS Code, Vercel, Render, Postman

Web Technologies

HTML, CSS

Databases

MongoDB, MySQL

Core CS Fundamentals

DBMS, Operating Systems, Computer Networks, Object-Oriented Programming (OOP)

Projects

Home Fix

<https://home-fix.vercel.app/>

- Engineered a **full-stack home-service marketplace** that connects customers with local professionals for service discovery, scheduling, online payments, and booking tracking.
- Designed **role-based workflows** for Customers, Providers, and Admins, covering provider availability, booking status management, reviews, favorites, and operational dashboards.
- Enabled **real-time booking communication with Socket.io** and integrated Razorpay, Cloudinary, Nodemailer, and MongoDB through RESTful APIs.

Cravory

<https://cravory-beta.vercel.app/>

- Architected a **multi-vendor bakery e-commerce marketplace** allowing customers to discover independent bakers, shop across vendors, and complete end-to-end purchases.
- Developed **secure role-based experiences** with Customer, Baker, and Admin portals for catalog, inventory, cart, coupon, order, and marketplace administration.
- Connected **Razorpay and Cloudinary** with MongoDB Atlas, incorporating payment verification and a production deployment pipeline using Vercel and Render.

Click Pilot

<https://click-pilot.vercel.app/>

- Created a **link management and analytics SaaS** that transforms long URLs into customizable, trackable links with expiration, password protection, smart redirects, UTM campaigns, and QR generation.
- Strengthened the platform with **JWT authentication, bcrypt protection, ownership authorization, rate limiting, CORS controls, and SSRF safeguards**.
- Implemented **traffic intelligence and link monitoring** to analyze clicks, devices, browsers, referrers, and geographic data, with cloud deployment across Vercel, Render, and MongoDB Atlas

Internship Experience

MERN Stack Developer

Coimbatore

APP INNOVATIONS

- Contributed to **end-to-end e-commerce development**, building reliable backend workflows for products, cart, checkout, and order management.
- Engineered **REST APIs and MongoDB data solutions** while implementing secure authentication and efficient application workflows.
- Collaborated in an **Agile development environment** and supported testing, debugging, deployment, and CI/CD to improve application reliability.

Certifications

Python Programming

Udemy

Software Testing

Udemy

Achievements

- Participated in Smart India Hackathon 2025.
- Completed Typewriting Junior and Senior Grade examinations with First Class Distinction.
